

110TH CONGRESS
2D SESSION

H. CON. RES. 350

IN THE SENATE OF THE UNITED STATES

JUNE 20 (legislative day, JUNE 19), 2008

Received and referred to the Committee on Foreign Relations

CONCURRENT RESOLUTION

Expressing the sense of the Congress that the United States, through the International Whaling Commission, should use all appropriate measures to end commercial whaling in all of its forms, including scientific and other special permit whaling, coastal whaling, and community-based whaling, and seek to strengthen the conservation and management measures to facilitate the conservation of whale species, and for other purposes.

Whereas 79 nations have adopted the International Convention for the Regulation of Whaling (the Convention), which established the International Whaling Commission (the Commission) to provide for the conservation of whale stocks;

Whereas the Commission has adopted a moratorium on commercial whaling in order to conserve and promote the

recovery of whale stocks, many of which had been hunted to near extinction by the whaling industry;

Whereas the United States was instrumental in the adoption of the moratorium, and has led international efforts to address the threat of commercial whaling for more than 3 decades;

Whereas despite the moratorium, 3 Commission member nations continue to kill whales for financial gain, disregarding the protests of other Commission members, and since the moratorium entered into force have killed more than 25,000 whales including over 11,000 whales killed under the guise of scientific research;

Whereas whaling conducted for scientific purposes has been found to be unnecessary by the majority of the world's cetacean scientists because nonlethal research alternatives exist;

Whereas the member nations of the Commission have adopted numerous resolutions opposing and calling for an end to scientific whaling, most recently in 2007 at the annual Commission meeting in Anchorage, Alaska;

Whereas commercial whaling in any form, including scientific and other special permit whaling, coastal whaling, and community-based whaling, undermines the conservation mandate of the Convention and impairs the Commission's ability to function effectively;

Whereas proposed coastal whaling is commercial, unless conducted under the aboriginal exemption to the moratorium; and

Whereas the majority of Americans oppose the killing of whales for commercial purposes and expect the United

(1) should use all appropriate measures to end commercial whaling in all of its forms, including scientific and other special permit whaling, coastal whaling, and community-based whaling;

(3) seek to strengthen conservation and management measures to facilitate the conservation of whale species.

Attest: LORRAINE C. MILLER,
Clerk.
